Parts List Form Number(s): 56042451

ECO#: A-02766

Subject: Handle paddle potentiometer wiring.

Description of Change: To prevent the potentiometer wiring from rubbing on the Travel Limit Screw (**A**) in the handle paddle assembly, a P-Clamp has been implemented in production. A Paddle Handle Kit **56315593** is now available to update machines built prior to the serial number shown below.

- The first machine with this change is serial number 1841910. Refer to the drawing below when ordering parts for a machine after this serial number.
- Machines before this serial number can be updated to include this change.
- Parts required to update earlier machines are available in a **Paddle Handle Kit, part number 56315593**. Parts included in the kit are listed below.
