Machine	TASKI swingo 455 – 1660 / XP
Subassembly	Squeegee

New optional blades for structured floors

Our application experts have brought to our attention, that we do not have any suitable blades for structured floors (e.g. Gerflor) in our portfolio.

Due to this reason, several internal- and field tests with closed front blades and without swamp holes have been carried out. The testing of the blades resulted in an enhanced suction performance, but also in a higher noise production (whistling).

In the development of the new optional blades all these factors have been taken into consideration, in order to find an optimum balance between suction performance and noise level.

New optional blade

The new optional blades are available with immediate effect for the following machines:

Description	Material number	Remarks
Blade 56/3x712 (TASKI swingo 455/755/855)	4133468 (12200-82)	New spare part
Blade 56/3x816 (TASKI swingo 955/1255/1260)	4133469 (12200-83)	New spare part
Blade 45/3x990 (TASKI swingo 1650/1660/XP)	4133470 (12200-84)	New spare part

Service Information

- | | |
|--|---|
| ☐ Check parts on stock | ☐ Return defective parts to Münchwilen |
| ☐ Proactive exchange recommended | ☒ NO proactive exchange recommended |
| ☒ Modification is backwards compatible | ☐ Modification is NOT backwards compatible |
| ☐ Update/modify machines in the field | ☐ Entitled to warranty |
| ☒ Dispose/recycle defective parts | ☒ Parts are available ex stock Münchwilen |
| ☐ Others | |

Production

Optional blades are not standard in serial production
