Subassembly	Castor

Red optional wheels for castors

For quite some time there is a requirement for softer wheels for our castors. Depending on the kind of floor driven on, the current standard wheels can be too hard and therefore cause some sort of loud driving noise.

In order to act against this noise, a new rubber compound has been developed in collaboration with our supplier.

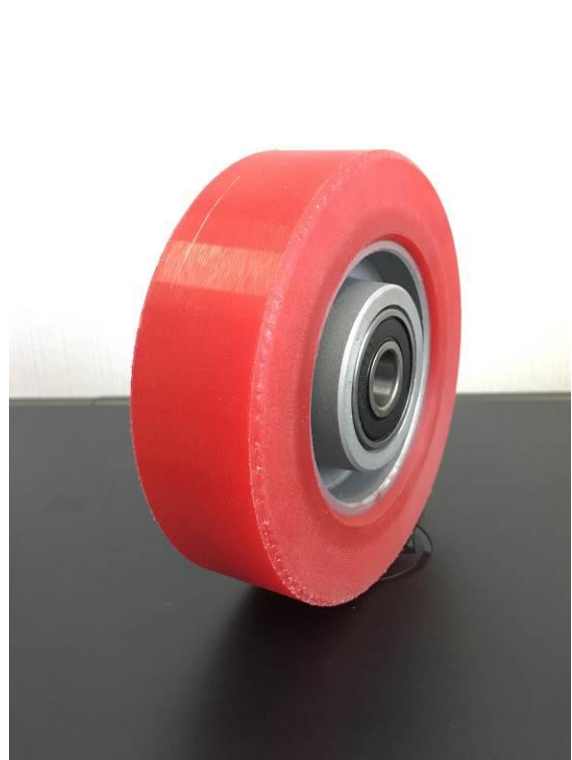

With immediate effect the new optional wheels are available for both castors:

- 4127101 (TASKI swingo 455-955)
- 4122600 (TASKI swingo 1255-1855)

Please note that the wheels are delivered as single parts without any extras, such as thread guards or mounting materials. These have to be taken over from the existing castors.

Wheel 100/40 for smaller machine range

Wheel 100/40 for medium machine range

GTS Newsletter

2017/13E

Description	Material number	Remarks
Wheel 100/40	4131934 (17460-83)	New spare part number
Wheel 100/30	4133249 (17702-83)	New spare part number
