Machine	TASKI swingo 1650, 1850, XP
Subassembly	Charger

New charger generation

A new charger generation (plug and play principle) will be introduced. The existing MEG charger will be replaced by a new, enhanced SPE charger. The new equipment includes an Anderson plug to connect the battery side, a plug for the power cable and a 8-Pin plug for the control cable.

If a defective old charger needs to be replaced by a charger of the new pluggable generation, then the plugs need to be cut and the wires have to be connected with connectors. An adapter cable to connect the old 6 pin plug with the new 8 pin plug of the charger has been integrated into the set. We have as well enclosed to the charger a detailed installation instruction how the modification (old - new) needs to be done.

Description	Material number	Remarks
Charger 24V/25A 220-240V for TASKI swingo 1650/1850 and XP (delivery with an adapter kit)	4127084 (18602-53)	Existing spare part number (Recommended for service purposes)
Charger 24V/25A 220-240V only for TASKI swingo XP-R/M models (delivery without adapter kit)	4131517 (18605-84)	Existing spare part number

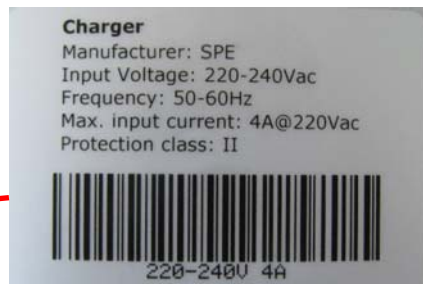

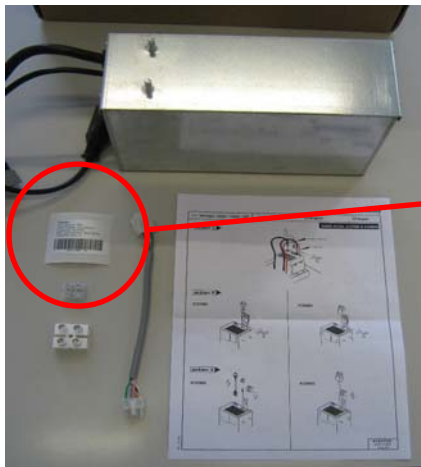

The charger (4127084/18602-53) includes specification label, connectors, connection cable as well as an installation instruction (complete adapter kit). For legal reasons the specification label needs to be affixed to the machine (see picture below). With this kit the new charger will be fully backwards compatible.
