Machine	TASKI swingo XP
Subassembly	Control board

New control board set

As the design and the shape of the tank on the new TASKI swingo XP models changed an adaptation of the control board fixation was required.

The control board of the existing TASKI swingo XP is mounted with two screws from the back. On the new models the control board will be mounted with screws from the front, identical to the walk behind machines.

Control board TASKI swingo XP with dummy plugs
Mounted with 2 screws from the back

Control board TASKI swingo XP-R/M
Mounted from the front

Description	Material number	Remark
Control board set TASKI swingo XP	4127116 (18602-64)	Existing spare part number

Service Information

- | | |
|--|---|
| ☐ Check parts on stock | ☐ Return defective parts to Münchwilen |
| ☐ Proactive exchange recommended | ☒ NO proactive exchange recommended |
| ☒ Modification is backwards compatible | ☐ Modification is NOT backwards compatible |
| ☐ Update/modify machines in the field | ☐ Entitled to warranty |
| ☐ Dispose/recycle defective parts | ☒ Parts are available ex stock Münchwilen |
| ☒ Others | |

In order to ensure backward compatibility of the control board, a new set which can be used for the new as well as the old TASKI swingo XP, has been prepared.

On the "old" TASKI swingo XP it has to be paid attention that the dummy plugs are used when mounting a control board.
