Service Tool Update Version 7.04

Recently the electronic boards have been harmonized between the TASKI swingo 350B, 455B and 755B eco. In combination with this harmonization the TASKI Service Tool has been extended to the additional machine.

Furthermore we did a harmonisation on certain functions used for the complete machine range as well as the positioning of various functional buttons e.g. save, download etc. in the new TASKI Service Tool.
