Subassembly	Filter / Valve

New 24 V magnetic valve

After extensive field tests we are in the position to introduce the next generation of 24V magnetic valve for the battery driven machines.

The new 24V magnetic valve has a different design as the previous model and will fit into all TASKI swingo walk behind models mentioned above. The coil of the new magnetic valve has been designed to create approximately 20% more force to support the opening and closing of the valve.

Description	Material number	Remarks
Filter 24V / Magnetic valve	4126924 (17700-07)	Existing spare part number
