| <b>Subassembly</b> | <b>Fresh Water Circulation</b>      |

## Pump 24V

Feedbacks from the field have indicated that the current configuration of the pump is not always meeting the demands. Together with the supplier of the pumps the mechanical setup as well as the used materials were optimised.

| Description    | Material no.       | Remarks               |
|----------------|--------------------|-----------------------|
| Pump 24V (old) | 4123169 (17608-33) | Type „A“ & „B“        |
| Pump 24V (new) | 4123169 (17608-33) | Type „C“ (red marked) |

## Service

Pumps delivered as spare parts are type "C".

## ⚠ CAUTION

Due to a delivery shortage only TASKI swingo XP will be delivered with the new pumps at the beginning. As soon as enough pumps are available the new pump type will also be used for the production of TASKI swingo 750 and TASKI swingo 1650.

## Production

|                   |                           |
|-------------------|---------------------------|
| TASKI swingo XP   | as of machine number 5000 |
| TASKI swingo 1650 | Q3/09                     |
| TASKI swingo 750  | Q3/09                     |
