Machine

Machine	TASKI swingo XP
Subassembly	Optional wheel

Optional wheel

Due to requests from the field and after internal research, driving wheels for special applications have been tested and implemented. They increase the operational safety and contribute to a better driving performance.

Driving wheel (Polyurethane) without profile

4128981 (18603-73)

Description	Possible operational area	New
Driving wheel without profile	Wheel marks behind the machine	4128981 (18603-73)
