TASKI swingo XP / Torsion Spring

After extensive tests we are able to introduce a new torsion spring, which can be strained / applied regular. On new machines a black plastic washer will be mounted in addition.

New spring

Black plastic washer

Photo with plastic washer

Description	Material Number	Remarks
Torsion spring	4126969 (18602-29)	Existing material number
Black plastic washer 55/26x1	4129157 (18603-77)	

Service

With immediate effect all machines will be mounted with the new torsion spring. As spare parts only new springs will be delivered from now on.

⚠ CAUTION

We recommend using the black plastic washer when mounting a new torsion spring.
