
Attention Service Manager/ Parts Department

Bulletin Level: 1*

Specific Warranty Coverage: N/A

Subject: A Solution Tank Kit, p/n 56109561, is now available for the Adphibian, BA and Convertamatic. The kit includes a new-style solution tank, new-style squeegee lift lever and lever mounting hardware.

Models Affected: Adphibian, BA 625, BA 725, BA 725C, BA 825, Convertamatic (all models); all machines prior to serial number 2059967

Parts List Form Numbers Affected: 56042451, 56042476

ECO# : A-03923, A-04273

Informational Bulletin: The squeegee lift lever on the 24-volt walk-behind scrubbers has been redesigned to include a lever stop as part of the lift lever casting, and the new-style solution tanks currently in production no longer have a stop screw or mating threaded tank insert (Figure 1). As a result of this design change, the old-style squeegee lift levers cannot be used with the new-style solution tanks.

If you replace a solution tank (with stop screw) and your machine has the old-style squeegee lift lever (Figure 2), you must install a new-style squeegee lift lever when you install a new solution tank. In this case you will need to purchase the Solution Tank Kit (p/n 56109561) which includes a new solution tank, and a new-style squeegee lift lever and mounting hardware.

* **Technical Service Bulletin Levels:**

Level 1: These Bulletins contain general information and are without specific warranty coverage.

Level 2: These Bulletins describe continuous quality improvements that are made to products. Specific warranty coverage may apply and if so is noted in the Bulletin.

Level 3: These Bulletins describe a quality problem that has been determined to require a mandatory update to the product. Specific warranty coverage is as noted in Bulletin.

Contents of the Solution Tank Kit:

Part Number	Qty.	Description
56315089	1	Solution Tank
56315730	1	Squeegee Lift Lever
56009117	1	Flat Washer, 1.031" x 1.859"
56003223	1	Hitch Pin Clip, .148" dia. Wire, for 5/8 to 1" Shaft dia.
56001854	1	Hex Head Screw, 1/4"-20 x 1/2"

Note: See Figure 3. You will need to use the 1/4" flat washer removed from the old squeegee lift lever assembly when installing the squeegee lift cable onto the new-style squeegee lift lever.
