INSTALLATION INSTRUCTIONS

WARNING!

DISCONNECT POWER BEFORE SERVICING.

- 1 Open the bag housing and remove the dirt bag. Remove or lift up the bag guard depending on model to expose the vacuum motors.
- 2 Place the Microstat Filters (B) on top of the existing vac motor filters as shown, make sure the filters are centered on each motor.
- 3 Push the (2) Filters (A) down over the Microstat Filters to hold them in place and reassemble the machine.
