

Technical Service Bulletin-ATTENTION SERVICE MANAGER

Machine Name: Carpetriever 28, GU 700A / Champion 28 / DuraTrac 19 /, Servicemaster Wide Area Tri Vac

Machine Model Number(s): 56330020, 56330910, 56330951 / 56636829 / 56636859 / 56330915

Parts List Form Number(s): 56042384 / 56042359 / 56042402 / 56041470

ECO#: A-01335

Subject: New wheels to be used on the above machines.

Description of Change: A more durable less expensive wheel is going to be used on the above mentioned machines.

• All models except DuraTrac 19: This ECO changes the wheel and the axle. The hubcaps are being removed and the fasteners are changing from cotter pins to push-on caps. If replacing wheels on machines before the serial number break it is necessary to purchase the following: two wheels (PN 56210148), one axle weldment (PN 56330045), two push-on nuts (PN 56009097) and two washers (PN 56009003).

• DuraTrac 19 only: This ECO changes the wheel and the spacer, which goes between the wheels. If replacement wheels are needed on machines before the change, it is necessary to purchase one wheel spacer (PN 56330047), which slides over the axle, for proper wheel spacing.

- The serial number of the first machine with this change is listed below. Refer to the drawings on page 2 when ordering parts for a machine after this serial number.

1525322 = Carpetriever 28 (115V)

1525322 = GU 700A

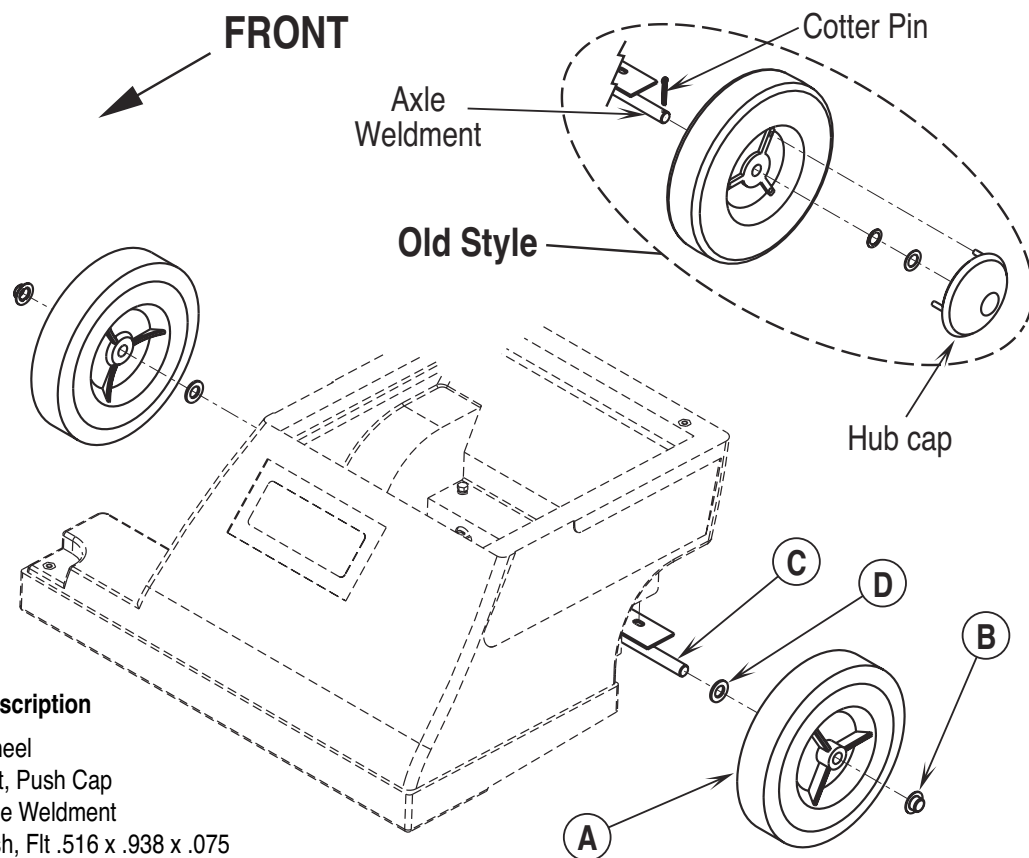

1525322 = GU 700A (Japan)

1525322 = Champion 28

1525322 = Wide Area Tri Vac (Servicemaster)

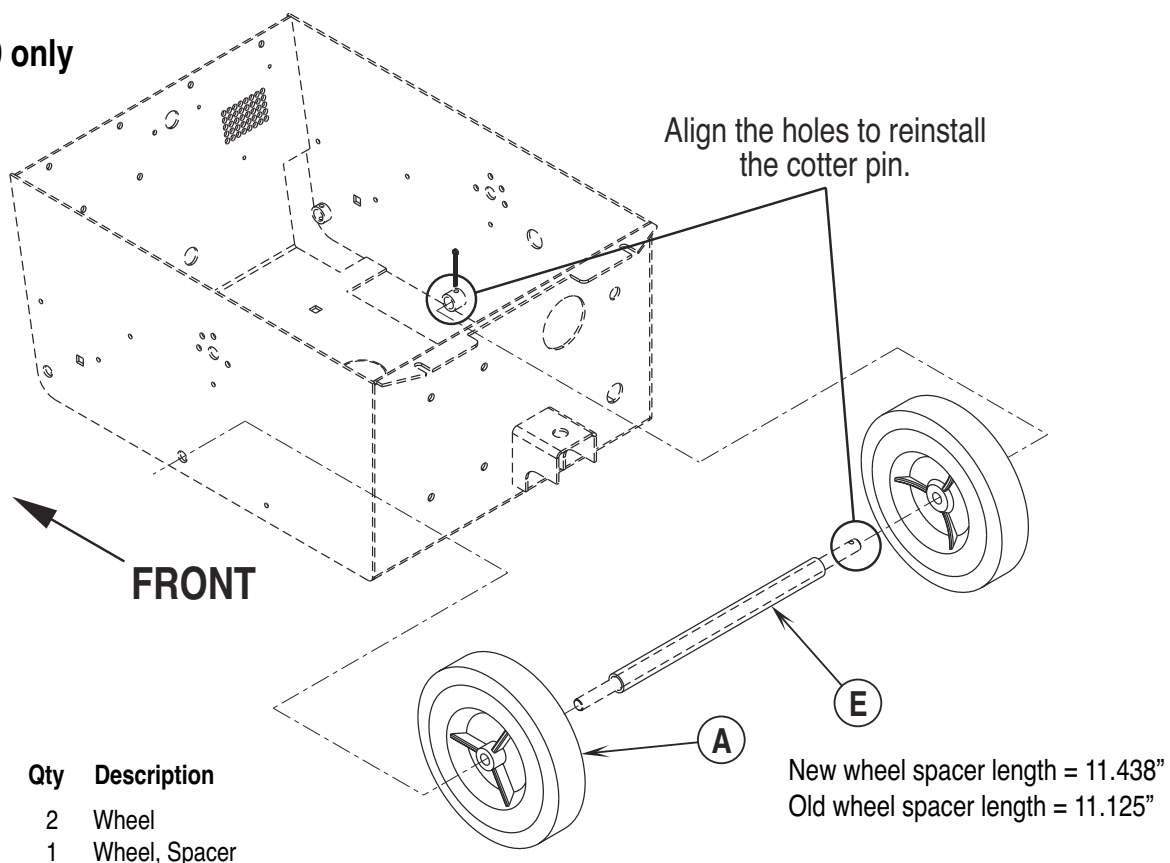

- Machines before these serial numbers can be updated to include this change (see Description of Change for complete details), old-style parts are no longer available.
- Parts required to update earlier machines must be ordered individually. Part numbers are listed on page 2.
