

LOCATION TAG INSTALLATION

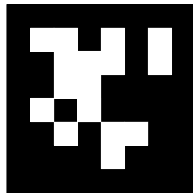

**Fix tag 1 m (3.3 ft)
off the ground**

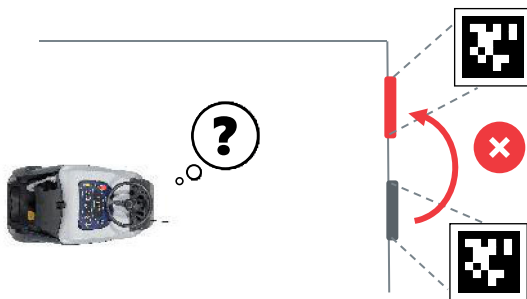

**No moveable objects
near tag**

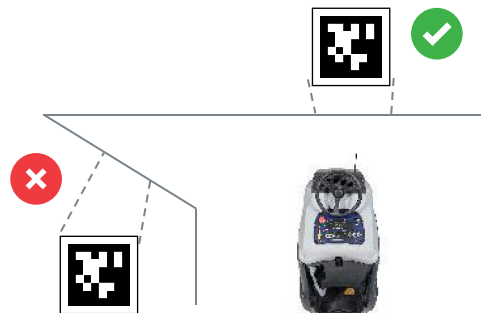

Nilfisk
LOCATION TAG

**DO NOT move tag.
Machine forgets
cleaning plans**

**Tag must be
clearly visible in a
well-lit environment**

Best Practices

- Always re-scan a location tag before recording a new plan
- Have a location tag within 10-20 m (32-65 ft) of the plan start point
- Re-scan location tag before starting playback of a plan
