

56384979 FOCUS II LINATEX SQUEEGEE BLADE KIT

Focus II Boost

CONTENTS OF KIT

Item	Ref. No.	Qty	Description
[]	56090309	1	Instruction Sheet
[1]	56384739	1	Card-Squeegee Blade-Linatex
2	38029A	1	Blade-Squeegee-Linard-Front
3	38030A	1	Blade-Squeegee-Linatex-Rear

[] = Not Shown

INSTALLATION INSTRUCTIONS

WARNING!

TURN KEY SWITCH OFF AND DISCONNECT MAIN BATTERY BEFORE SERVICING.

OPTIONAL FRONT SQUEEGEE BLADE MATERIAL REMOVAL

- 1 If you modify the front squeegee blade you may reduce the noise generated but as a result, the overall suction capacity will be reduced when using the squeegee system. Modification is effective primarily for smooth, well-maintained floors. It is not recommended for rough, textured, grouted, or heavily soiled floors.
- 2 **See Figure 1.** The Front Squeegee Blade (2) is a tear resistant Linard trademark material. **Do not remove the perforated section of material by hand.** The blade has perforations to indicate a clean line where the section of material is to be removed. Using a sharp scissors, fold the squeegee blade slightly and follow the perforations to cut and remove the material as shown.

NOTE: You may want to remove the material from just one edge of the front squeegee blade allowing the other edge to be used for applications that benefit from the highest possible suction capacity.
