Bulletin Level: 1*

Specific Warranty Coverage: N/A

Subject: Ninety-Degree Elbow Kits are Available to Connect Squeegee Vacuum Hoses to Squeegees

Models Affected: Focus II L17/L20/S20; BOOST L20

Parts List Form Number Affected: 9097066000

ECO#: ODM 3883

Information Bulletin: See Figures 1 and 2 below. A new 90-degree elbow kit is available to connect the squeegee vacuum hose to the squeegee. The elbow helps prevent the brush lifting pedal from interfering with the squeegee hose when the machine is used for drying only (brushes lifted upward and the pedal in the lowered position).

Issue: Brush lifting pedal interfering with the squeegee vacuum hose.

Cause: The vertical squeegee vacuum hose connection to the squeegee positions the hose such that it can interfere with the brush lifting pedal under certain circumstances.

Corrective Action: Field: If you frequently use the machine for drying only with the squeegee down and the brushes retracted upward, you may find it convenient to install the accessory 90-degree elbow kit. The kits are available in black and gray as follows:

- 90-degree elbow kit, gray – p/n 9098853000
- 90-degree elbow kit, black – p/n 9098854000
