

Severe Environment Lockout Kit

Models: T300, T350, T500, T600 and Speed Scrub 350

This kit includes the necessary parts to lockout an operator from adjusting the Severe Environment detergent mixing ratio knob.

INSTALLATION INSTRUCTIONS:

Installation Time: 0.5 Hours

Tools Required: Power Drill, 5/32" / 4mm Drill Bit and Phillips Screwdriver.

FOR SAFETY: Before installing kit, park machine on a level surface and remove key .

1. Adjust the detergent mixing ratio knob to the desired setting.
2. Position the lockout cover (2) over the detergent knob panel as shown. Make sure to engage the rear tab under the panel.
3. Align the cover with the mounting hole in panel and secure cover with screw (3) as shown.

NOTE: If the mounting hole is not factory installed, carefully drill a 5/32" (4 mm) hole into the panel. Use the lockout cover as a template to locate the hole position in the panel.
