

Combimat Swingo 2500

Ride-On Auto-Scrubber
Order # 4333620 (Complete)
Call 1-800-TASKI-US

Unbeatable Cleaning Performance

A patented, all-wheel steering system, defines new standards in maneuverability and, therefore, allows the use of this ride-on machine even in narrow and congested areas. The innovative squeegee concept ensures a 100% edge-to-edge water pickup even in curves and while turning.

Unique Ergonomics

The machine offers a seated operating position, coupled with a very high working speed. The extremely low noise level, which is comparable to the noise level of a vacuum cleaner, makes work more enjoyable.

Reliability and Durability

Fewer mechanical parts and a robust construction make the machine very reliable. Easily exchangeable brushes and squeegee blades allow simple maintenance and, therefore, ensure the machine can be easily prepared for use at any time.

Unrivalled Productivity

A higher cleaning speed of 7.5 km/h combined with the CSD (Cleaning Solution Dosing) System make the TASKI Swingo 2500 / 3500 series 40% more productive compared to walk-behind automatic scrubber driers.

Technical Data

Theoretical Performance	52,500 Sq. Ft.
Working Width	28 Inches
Squeegee Width	36.5 Inches
Coverage (ft ² /h)	25,000 - 32,500
Tank capacity	25 Gallon
Weight with Batteries	562 Lbs.
Noise Level	67 dBA
Dimensions	2.5 x 5.5 x 4.5 Ft.
Brush Pressure	119-163 Lbs.
