Subject: Softer Durometer Caster Wheel

PRODUCT IMPROVEMENT

We have made available a softer durometer caster wheel for use on various NSS machines. The softer durometer caster wheel offers improved noise suppression and a smoother ride on uneven surfaces.

The softer caster wheels are currently only available as replacements in 3 1/2", 4" and 6" sizes that are used on many NSS machines. The table below lists the various caster assemblies and the available caster wheels for your convenience.
