Improved productivity

Medium to large size areas can be cleaned up to 3 times faster compared to conventional wet/dry vacuuming methods. Used together with a TASKI Ergodisc for basic cleaning tasks, such as, stripping or wet scrubbing, leads to significant productivity increases. This results in total cost efficiency and convenience for the operator.

Robustness and durability

A specially designed mechanical float system with a dual filter guarantees double protection of the motor unit and significantly prolonged service life. The stainless steel tank, which is resistant to alkaline and acidic cleaning solutions, combined with the robust steel trolley with rubber wheels, ensure high durability.

Excellent suction performance

The Fixomat squeegee ensures efficient water pickup and gives streak free, excellent drying results. For cleaning of spillage, small areas or any other customer specific need the machine can be equipped with a variety of accessories for wet cleaning.

Ergonomic operation

The tilt system and comfortable handle grip on the container makes emptying of the container ergonomic and easy. The adjustable handle ensures comfort and ergonomomy during operation.

Technical Data

Container capacity: wet	12 Gallon
Container capacity: dry	12 Gallon
Container volume	18 Gallon
Squeegee width	25 Inches
Sound level	67 dBA
Nominal consumption	2 x 950 Watts
Suction Power (Vacuum)	2 x 105 Inch Water lift
Max air flow	2 x 94 CFM
Dimensions	33 x 21
Cable length
