

Manufactured by: **TASKI** Model: **swingo XP**
Self Test for the Vac Motor, Brushes, and Squeegee

These are general maintenance guidelines.

Please consult your owner's manual prior to performing any repairs or maintenance on this machine.

Tech Support

1. Press and hold both plus signs and turn the key and hold it in the on position until S100 appears on the screen..

6. After a few seconds, the screen will display a code. E000, shown here, means the vac motor, brushes, and squeegee are in working order.

Note: Refer to your owner's manual for code definitions.

2. Press the brush pressure plus button until the screen displays S300.

7. Press the Eco button to exit back to the original screen.

3. Press the start/stop button to enter into the S300 sub menu. The screen will display S301.

4. Press the start/stop button again until the screen changes to a running dash.

5. The machine is now running a self test. The brushes will turn on and the squeegee will lower automatically.
