

### DATE OF BULLETIN:

7-03-2017

### THIS BULLETIN SUPERSEDED BULLETIN(S):

None

### MODELS AFFECTED:

SPORT	PRO
CARBON	GTX
HERO	XR

### MACHINE SYMPTOMS:

None.

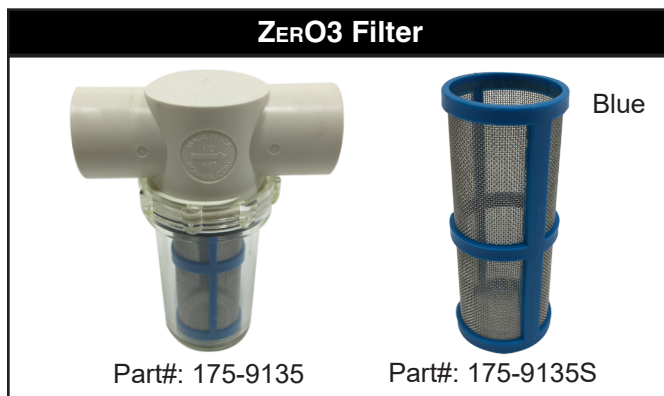

### SCOPE OF BULLETIN:

New ZERO3 and Suds combination options available on machines.  
New standard Inline Solution Filters for machines.

### MATERIALS REQUIRED:

Part #:175-9130 - Regular Solution Black (40 Mesh)  
Part #:175-9135 - ZERO3 Optional Blue (50 Mesh)

### REVISIONS:

### ZERO3:

Added ZERO3 Aqueous Ozone Onboard system option. ZERO3 plumbing is separate from regular plumbing ZERO3 and Suds to run simultaneously or individually.

Benefits of ZERO3:

- Chemical Free cleaning
- Reduced carbon footprint - Bottom line savings
- Cost Effective
- Eliminate odors
- Effective general purpose cleaner
- Backed by science for over a century
- Environmentally & Operator safe

### Suds:

New tanks feature Suds reservoir allowing non-proprietary soap dispensing with three dilution settings: OFF, 250:1 (approx. 1/2oz / gallon) or 125:1 (approx. 1oz / gallon) ratios.

Benefits of Suds:

- Universal and non proprietary
- Portion control for consistent results
- Injects last so soap doesn't hit filters or valves
- Easy to see fill level without opening covers

### Literature:

New literature for the Onboard ZERO3 System is available for download here:
