Sub-Assembly	Charger Set

New charger set for TASKI swingo 455B-955B

From now on, the new charger set 24V 13A CLI 100-240V (4133569), which in the past has been used with TASKI swingo 350B, is also installed on TASKI swingo 455B – 955B and replaces the previously used 9A charger set 4122997.

In addition, the battery charging cable on the 13A battery charger has been extended in length to allow the usage of the charger also in TASKI swingo 455B – 955B.

For new machines the following charging curves are set as a default:

CHARGING CURVE	DEFAULT SETTING	DIP SWITCH 1		DIP SWITCH 2		CURRENT SETTING
		DP1	DP2	DP1	DP2	
GEL 25 - 40Ah	X	OFF	OFF	OFF	OFF	
GEL 41 - 62Ah		OFF	OFF	OFF	ON	
GEL 63 - 100Ah		OFF	OFF	ON	OFF	

Please note: As a spare part the charger set 4133569 is **always** delivered with the charging curve GEL 25-40Ah. If 50Ah batteries are installed in the machine, the charging curve must be adapted accordingly.

Important: The charger will adopt new charging curve settings only after being switched ON once without batteries connected.

GTS Newsletter

2019/02E

To retrofit the new 13A charger set with existing machines, two different brackets are required, depending on the machine type. The corresponding numbers can be found in the table below:

Description	Material number	Remarks
Charger set 24V 13A CL1 100-240V	4133569 (17623-45)	New article number
Support charger 455B	4133371 (17460-85)	New article number
Support charger 755B / 855B / 955B	4133372 (17623-44)	New article number
